

**616 Somerville Rd
West Sunshine
Vic, 3020**

For Regular Maintenance (Ceramic and Porcelain)

1. Wipe off dust from the surface of the tiles with a regular schedule.
2. Dilute methylated spirits with water or vinegar with water for cleaning.
3. Spread the cleaning solution on the surface and rub with the use of a cloth mop. Rinsing is not necessary.
4. Allow the cleaned area to dry before permitting pedestrian passage.

Notice

Cleaning and maintenance program depends essentially on the density of traffic, the condition of the surrounding area where the tiles are installed and the nature of dirt to which the floors or walls are exposed. Thus, routine cleaning and maintenance must be performed according to specific requirements.

Any spillage of tea, coffee, paint, permanent marker, hair dye, nail polish and the like on the tiles must be immediately cleaned to prevent severe staining.

It is not advisable to use strong acid solution or its compound for cleaning.

Do not use metal tools to scrape the dirt from the surface of the tiles as this may scratch the tiles
